## Environmental spill reported in Williams County

BISMARCK, N.D. Select Water Solutions recently notified the North Dakota Department of Environmental Quality (NDDEQ) of a produced water release on February 11, 2026.

Select Water Solutions estimates 250 barrels (10,500 gallons) of produced water ran off the facility into the ditch impacting the surrounding environment.

Personnel from the NDDEQ are working with the responsible party on cleanup and will continue to monitor the remediation.

Federal and state laws require operators to report the spillage of any materials that may pollute water, air or soil. Visit [spill.nd.gov](http://spill.nd.gov) for more information about North Dakota's Unified Spill Reporting System notifications and the public access tool.
