Produced Water spill reported in Dunn County

BISMARCK, N.D. – HD Trucking LLC has notified the North Dakota Department of Environmental Quality (NDDEQ) of a produced water spill from a truck accident in Dunn County. The incident occurred on Friday, Oct. 2, about 15 miles northeast of Dickinson.

HD Trucking LLC estimates approximately 2 barrels (84 gallons) of produced water were released, impacting a roadside ditch and Spring Creek. Produced water is a byproduct of oil and gas production.

NDDEQ personnel have inspected the site and will continue to monitor the investigation and cleanup.

Federal and state laws require that operators report the spillage of any materials that may pollute water, air or soil. Visit spill.nd.gov for more information about North Dakota's Unified Spill Reporting System notifications and the public access tool.
