

FINDING OF NO SIGNIFICANT IMPACT

TO ALL INTERESTED GOVERNMENTAL AGENCIES AND PUBLIC GROUPS:

As required by guidelines for the preparation of environmental impact statements, an environmental review has been performed on the proposed action below:

Project: Western Area Water Supply Authority (WAWSA) – Williams Rural Water District (WRWD) Transmission Main to Airport & District 8 School

Location: Williams County, North Dakota

SRF Project No.: 2701477-02

Total Cost: \$2,784,000

The proposed project is for the improvement of an existing regional water system and will provide water to several rural residents currently served by private wells, a new school, and the relocated Williston Airport in the Williams Rural Water District service area. The area has experienced tremendous growth due to expanded energy related ventures. This has brought a large new workforce to the area and significantly increased residential water demands that are causing existing sources and systems difficulty in meeting the increased water demands for the region. Without the expansion of the WRWD Transmission Main, the potential for unreliable service and limited water quantity to Williams County is high.

The project site will include an easement along approximately 10 miles of land and will provide water to several rural customers, a new school, and Williston Airport. For a further discussion of this see Item V, Environmental Impacts of Proposed Project in the attached Environmental Assessment document. Wetlands, area flood plains, threatened or endangered species habitat, or archeological sites will not be adversely impacted.

The review process did not indicate significant environmental impacts would result from the proposed action. Consequently, a preliminary decision not to prepare an environmental impact statement has been made. This action is taken on the basis of a careful review of the engineering report, environmental information document, and other supporting data which are on file in the Municipal Facilities Division of the North Dakota Department of Health.

Comments concerning this decision may be addressed to Henok Woldeyes, Environmental Engineer, Division of Municipal Facilities, North Dakota Department of Health, 918 East Divide Avenue, 3rd Floor, Bismarck, ND, 58501-1947.

After evaluating the comments received, the agency will make a final decision; however, no administrative action will be taken on the project for at least 30 calendar days after release of the Finding of No Significant Impact.

Dated the 22nd day of March 2018.

David J. Bruschwein, P.E.
Director
Division of Municipal Facilities
