

CLASS C OPERATOR TRAINING CHECKLIST

North Dakota Department of Environmental Quality – Division of Waste Management
Underground Storage Tank Operator Training Program
918 E. Divide Ave., 3rd Floor • Bismarck ND 58501-1947
Phone: 701-328-5166 • Fax: 701-328-5200 • Website: <https://deq.nd.gov/wm>
Revised 09/2019

Instructions: Below is a guideline that can be used to help Class C Operators at your facility fulfill their training requirements. At least one Class C Operator (or higher class) must be present onsite while the tank system is operating. If your facility is a service station and allows customer fueling via pay at the pump only (meaning the convenience store is closed, no employees present) you are required to post a sign with the name and address of the facility and the telephone number of the facility owner, operator, or local emergency response. Training records must be immediately available.

Facility Information

Facility Name:	
Facility Address:	

Check each area of training related to the Operator’s specific duties upon completion:

- Fuel Pump Emergency Shut-offs: Location(s) and Usage
- Leak Detection Console: Warnings, Alarms, and Response
