

## MONTHLY ELECTRONIC LINE LEAK DETECTOR RECORD

North Dakota Department of Health

Division of Waste Management – Underground Storage Tank Program

Revision: 04/2012

Facility Name: \_\_\_\_\_

Facility Address: \_\_\_\_\_ City: \_\_\_\_\_ ND Zip Code: \_\_\_\_\_

Product Line: \_\_\_\_\_ ELLD Make/Model: \_\_\_\_\_

| Month     | OK (✓) | Leak Detector Tripped (✓) | Reason Leak Detector Tripped |
|-----------|--------|---------------------------|------------------------------|
| January   |        |                           |                              |
| February  |        |                           |                              |
| March     |        |                           |                              |
| April     |        |                           |                              |
| May       |        |                           |                              |
| June      |        |                           |                              |
| July      |        |                           |                              |
| August    |        |                           |                              |
| September |        |                           |                              |
| October   |        |                           |                              |
| November  |        |                           |                              |
| December  |        |                           |                              |

**Note:** If the electronic line leak detector trips, there exists a potential leak in your piping system. The reason the leak detector tripped must be investigated and corrective action taken to address the problem. In addition, if a release of product has occurred, it must be reported to the North Dakota Department of Health's Underground Storage Tank Program at (701) 328-5166.
