Date 30-Day Leak Check Performed	Result of 30-Day Visual Inspections			Inspector's Initials
	Sump Dry	Water Observed (in)	Fuel Observed (in)	

**Note:** If fuel is observed in the dispenser or submersible sumps, there exists a potential leak in your piping system. The source of the fuel must be investigated and corrective action taken to address the leak. In addition, if a release of product has occurred, it must be reported to the North Dakota Department of Environmental Quality's Underground Storage Tank Program at 701-328-5166.
