Re: Air Pollution Control Draft Permit to Construct
No. ACP-18308 v1.0, ACP-18309 v1.0, & ACP-18310 v1.0

Dear Andeavor,

Pursuant to the Air Pollution Control Rules of the State of North Dakota, the Department of Environmental Quality (Department) has reviewed the permit applications submitted by August 18, 2025 to obtain a Permit to Construct for Stanley Compressor Station, Robinson Lake Gas Plant, and Belfield Gas Plant located in Mountrail County and Stark County, North Dakota.

Before making final determination on the draft Permit to Construct, the Department must solicit public comment by means of the enclosed public notice. As indicated in the notice, the public comment period will begin on March 12, 2026, and end on April 11, 2026. The Department's analysis and a draft copy of the Permit to Construct will be published online at <https://deq.nd.gov/AQ/PublicCom.aspx> prior to the start of public comment.

All comments received will be considered in the final determination concerning issuance of the permit. You will be notified in writing of our final determination.

If you have any questions, please contact me at (701) 328-7636 or eyablonski@nd.gov.

Sincerely,

Eric Yablonski, MEng, EIT
Environmental Engineer
Division of Air Quality

NOTICE OF INTENT TO ISSUE AN
AIR POLLUTION CONTROL
PERMIT TO CONSTRUCT

Take notice that the North Dakota Department of Environmental Quality (NDDEQ or the Department) proposes to issue multiple an Air Pollution Control Permits to Construct (PTCs) to Andeavor Field Services LLC (owned by MPLX) in accordance with the North Dakota Air Pollution Control Rules. The proposed air pollution control permits are for the integration of federally enforceable requirements for three facilities: Stanley Compressor Station, Robinson Lake Gas Plant, and Belfield Gas Plant located in Mountrail County and Stark County, North Dakota.

Preliminary evaluations made by the Department indicate that the facilities will comply with all applicable Air Pollution Control Rules and there will be no detrimental/significant effects to air quality. Predicted concentrations in the air surrounding the facilities are expected to be below the state and federal ambient air quality standards, which are standards that are set at a level to protect human health and the environment.

A 30-day public comment period for the proposed PTCs will begin on March 12, 2026, and end on April 11, 2026. For purposes of official consideration, all comments must include the subject line "Re: Public Comment for Permit Number ACP-18308 v1.0," (or ACP-18309 v1.0 or ACP-18310 v1.0) and must be directed in writing via email to AirQuality@nd.gov or via physical letter addressed to the NDDEQ, Division of Air Quality, 4201 Normandy Street, 2nd Floor, Bismarck, ND 58503-1324. Comments must be received by 11:59 p.m. CST on the last day of the public comment period in order to be considered in the final permit determination.

The facilities' PTC applications, the Department's proposed PTCs (permits), Air Quality Effects Analysis (technical support) are available for review at the Department's office and online at <http://deq.nd.gov/AQ/PublicCom.aspx>. Mailed copies of these documents are available upon request.

The Department will consider every request for reasonable accommodation to provide an accessible meeting facility or other accommodation for people with disabilities, language interpretation for people with limited English proficiency (LEP), and translations of written material necessary to access programs and information. Language assistance services are available free of charge to you. To request accommodations or language assistance, contact the NDDEQ Non-discrimination/EJ Coordinator at 701-328-5150 or deqEJ@nd.gov. TTY users may use Relay North Dakota at 711 or 1-800-366-6888.

Dated this 9th of March, 2026.

James L. Semerad

Director

Division of Air Quality
