MEMO TO : Companies and Operators Who Submit  
Oil and Gas Well Registrations

FROM : Terry L. O'Clair, P.E.  
Director  
Division of Air Quality *1/20*

RE : New Registration Fee and Form for Oil  
and Gas Production Facilities

DATE : November 27, 2012

This memorandum is to inform you about a new registration fee that will go into effect on January 1, 2013. This new fee will be \$150 per well registration and will require the use of a new registration form (SFN 14334, dated 10-12). The North Dakota Department of Health (Department) requires that this new well registration form be used and that the previous SFN 14334 be discarded.

The Department will accept one check if there are multiple registrations as long as each well is identified either on the check or on an accompanying list.

Operators are expected to be in compliance with the Bakken Guidance Document and with the North Dakota Air Pollution Control Rules. All documents relating to Department Oil and Gas can be found at: <http://www.ndhealth.gov/AQ/NewGuidanceOilandGasPro.htm>.

Note: Attached is the new Oil and Gas Production Facility Registration Form (SFN 14334).
