Division of Air Quality

RE : Permit to Construct Application Fee Increase

DATE : June 1, 2016

Section 33-15-23-02 of the North Dakota Air Pollution Control Rules requires a fee to be submitted with an Air Pollution Control Permit to Construct (PTC) application. The PTC application fee is currently \$150 with the fee not having changed in over 25 years.

To account for inflation and the increased complexity of PTC applications, the application fee will increase to \$325 on July 1, 2016. All Permit to Construct applications received by the Division of Air Quality on or after July 1, 2016 must include the \$325 application fee with the permit application.

Any questions regarding the fee increase may be addressed to me at 701-328-5188 or [cthorstenson@nd.gov](mailto:cthorstenson@nd.gov).
