BACKGROUND:

The North Dakota Department of Environmental Quality (Department) received a permit application for a renewal and modification for the Ideal Oilfield Disposal, LLC’s (Ideal) oilfield special waste landfill.

Ideal currently owns and operates an oilfield special waste landfill regulated under Permit 0370 on approximately 91 acres located in the Section 19, Township 150 North, Range 99 West in McKenzie County, ND. Ideal is proposing to renew their permit and to modify the waste acceptance to accept industrial wastes. The modification requests that the oilfield special waste landfill be allowed to accept industrial waste and discusses the necessary changes to the waste acceptance and leachate management plans. The facility was first permitted in 2013.

The Department believes that a permit which meets the requirements of the North Dakota Solid Waste Management Rules and is protective of human health and the environment can be issued to Ideal Oilfield Disposal, LLC and has prepared a Draft Permit for public review and comment.
