The North Dakota Department of Environmental Quality (Department) received a permit application for a renewal for Kalix’s transfer station.

Kalix currently owns and operates a transfer station, regulated under Permit 0028, located in the SW1/4 of Section 20, Township 155 North, Range 82 West in Ward County, ND. Kalix is proposing to renew their permit to continue current operations of transferring recyclable materials. The facility was first permitted in 2001.

The Department believes that a permit which meets the requirements of the North Dakota Solid Waste Management Rules and is protective of human health and the environment can be issued to Kalix and has prepared a Draft Permit for public review and comment.
