FACILITY NAME: Linton Inert Landfill – Permit 0381

APPLICANT: City of Linton
PO Box 57
Linton, ND 58552

BACKGROUND:

The North Dakota Department of Environmental Quality (Department) received a permit application for a renewal for the City of Linton's inert waste landfill.

The City of Linton currently owns and operates an inert waste landfill, regulated under Permit 0381 on approximately 5.95 acres (4.5 acres are usable for solid waste management activities) located in the SE1/4 of the SE1/4 of Section 19, Township 133 North, Range 76 West in Emmons County, ND. The City of Linton is proposing to renew their permit to continue accepting building demolition and renovation debris and other inert waste. The facility was first permitted in 2016. The facility was originally granted a waste disposal variance in 2009 to dispose of flood impacted homes.

The Department believes that a permit which meets the requirements of the North Dakota Solid Waste Management Rules and is protective of human health and the environment can be issued to the City of Linton and has prepared a Draft Permit for public review and comment.
